MADE IN USA

1 Dry Prep nails. Apply **pH Nail Prep**. If sculpting, apply Bonding Gel and cure 5 seconds in **LED** light. Apply forms. If applying clear tips, apply and etch tip. Remove dust. Apply Bonding Gel to entire nail including tip. Cure 5 seconds.
*Bonding gel cannot go under the tip or application will not adhere.

2 Thinly overlay entire nail and create free edge with **Brush on Builder**. Flash cure 10 seconds. Repeat application on all nails. Cure for 30 seconds.

3 Thinly overlay entire nail and new free edge. Do not cure.

4 Float a bead down the center of the nail and allow to self level. Flash cure 10 seconds. Remove nail forms.

5 Repeat application on all nails. Cure 30 seconds.

6 Cleanse the inhibition layer with **Nail Surface Cleanser** and a Lint-Free Wipe.

7 Shape free edges and contour the nail surfaces with a **180/180 Grit File**. Buff nail using a **100/180 Grit Buffer**. Cleanse nails.

8 Apply **Glossing Gel** to the surfaces and thinly Cap the Free Edges. Cure 30 seconds and cleanse.

9 Massage **Revive Cuticle Oil** in the skin surrounding the nail plate.

SOAK OFF REMOVAL:
File to remove 80% of product. Soak 25 minutes using **Nail Product Remover**. Gently push off product with a **Crystal Pusher**.
